- Java
- Python
- JavaScript

## EXPERIENCE

2019 - 2020

2021 - 2022

2 years

### Web Developer | RAM CREATIVE CODERS

After finishing my course, I had the opportunity to put all my knowledge into practice at a professional level and in addition to continuing to learn what it is really like to work in the programming area, I managed to adapt well to the more rhythmic environment.

- I was part of the development of multiple projects for clients, working on several new functions and implementations on front-end and back-end systems.
- Got used to manage project tasks with the trello managing software.
- Good communication skills obtained due to permanent interaction with my co-workers.
